

CARLOS DANIEL

Houston, TX | (281) 594-6947 | cdg1827@gmail.com

SUMMARY

Full-stack developer with hands-on experience building and deploying production web applications end to end — frontend, backend, database, authentication, and cloud deployment. Delivered a real client project from design through DNS configuration, and currently building a full-stack SaaS product with planned AI integration. Incoming Computer Science student at Houston Community College (Fall 2026). Native Spanish speaker, professional working proficiency in English.

TECHNICAL SKILLS

- Frontend: React, Vite, JavaScript, Zustand, Recharts, responsive CSS
- Backend: Django, Django REST Framework, JWT authentication (SimpleJWT), REST API design
- Database: PostgreSQL, relational data modeling
- Deployment & Infrastructure: Vercel, Render, Cloudflare (DNS/SSL)
- Tools & Practices: Git/GitHub, Axios interceptors, environment-based configuration, AI-assisted development workflows (Claude)

PROJECTS

Lucdex — Personal Finance SaaS

In Progress

React, Vite, Django REST Framework, PostgreSQL, JWT, Zustand, Recharts

- Building a full-stack personal finance application with a freemium subscription model
- Designed custom user authentication with access/refresh token handling and protected routes
- Planning natural-language transaction entry via Claude AI API integration

VantaLinks — URL Management Application

CS50 Web Final Project

React, Vite, Django, PostgreSQL, Vercel, Render

- Designed and deployed a full-stack URL manager as the capstone project for Harvard's CS50 Web Programming course
- Resolved cross-domain CSRF token handling between a Vercel-hosted frontend and a Render-hosted backend
- Managed PostgreSQL database migration in a production deployment

Cuba Yo — Client Website

Freelance Project

React, Vite, Cloudflare DNS

- Designed and delivered a complete website for a real client (Cuban café), from initial concept to live deployment
- Implemented client-side routing, an events gallery with lightbox, and mixed anchor/route navigation
- Configured custom domain and DNS through Cloudflare

FREELANCE EXPERIENCE

Independent Web & Software Developer

Houston, TX — Ongoing

- Deliver custom websites and full-stack web applications for small businesses and entrepreneurs
- Manage full client lifecycle: proposals, service agreements, milestone-based payments, and post-delivery support
- Offer tiered service packages ranging from landing pages to full-stack applications with database and authentication

EDUCATION

Houston Community College — Alief-Hayes Campus

Expected Start: August 2026

Associate of Arts, Computer Science (in progress)

CS50: Web Programming with Python and JavaScript — Harvard University (edX)

Completed

Completed coursework covering full-stack web development, deployed final project (VantaLinks)
